EDUCATION

University of Illinois Urbana-Champaign	May 2028
<i>Bachelor of Science in Actuarial Science</i>	GPA: 4.0/4.0
Chicago Math and Science Academy	June 2024
<i>High School Diploma</i>	GPA: 3.7/4.0

TECHNICAL SKILLS

- **Programming Languages:** Python, Kotlin
- **Web Development:** HTML, CSS, JavaScript
- **Data Analysis:** Python (pandas, matplotlib)

PROFESSIONAL EXPERIENCE

Discovery Partners Institute- Data Science Digital Scholar Chicago, IL
Jun 2024 - Aug 2024

- Participated in a program focused on the intersection of statistics, computation, and real-world applications, gaining hands-on experience with Python for data analysis and visualization.
- Applied statistical methods to uncover trends and insights, enhancing decision-making through data-driven approaches.

Greenwood Project - Greenwood Scholar Chicago, IL
July – August 2023

- Led a team of 5 in the Greenwood Project Fintech Competition, driving collaboration and innovation to develop a comprehensive financial technology solution.
- Gained in-depth knowledge of and experience with Python and finance.

Expedia Code Nation Fellowship - Student Intern Chicago, IL
Oct 2023 - May 2024

- Completed 4+ fully functional web projects using HTML, CSS, and JavaScript
- Reduced debugging time by 40% by maintaining strong attention to detail, ensuring clean and error-free code

PROJECTS

Data Science Project:

- Analyzed the correlation between player statistics in the Premier League 2023/2024 season, focusing on forwards' goals, assists, and minutes played, using Python for statistical analysis and visualization.

Stock Analysis and Investment Strategy:

- Earned 3rd place out of 100 participants by developing a program to assess stock performance and test investment strategies.
- Analyzed historical stock data (2012-2021) for S&P 500 companies, implementing functions to assess both top-performing and worst-performing stocks and compared their future performance to determine the effectiveness of the strategy.
