EDUCATION

University of Illinois Urbana-Champaign	May 2028
Bachelor of Science in Actuarial Science	GPA: 4.0/4.0
Chicago Math and Science Academy	June 2024
High School Diploma	GPA: 3.7/4.0

TECHNICAL SKILLS

- Programming Languages: Kotlin
- Web Development: HTML, CSS, JavaScript
- Data Analysis: Python (pandas, matplotlib)

PROFESSIONAL EXPERIENCE

Discovery Partners Institute- Data Science Digital Scholar Chicago, IL
Jun - Aug 2024

- I participated in a program focused on the intersection of statistics, computation, and real-world applications, gaining hands-on experience with Python for data analysis and visualization.
- I applied statistical methods to uncover trends and insights, enhancing decision-making through data-driven approaches.

Expedia Code Nation Fellowship - Student Intern Chicago, IL
Oct 2023 - May 2024

- Completed 4+ fully functional web projects using HTML, CSS, and JavaScript
- Reduced debugging time by 40% by maintaining strong attention to detail, ensuring clean and error-free code

Greenwood Project - Greenwood Scholar Chicago, IL
July - August 2023

- In a team of 5 in the Greenwood Project Fintech Competition, driving collaboration and innovation to develop a comprehensive financial technology solution.
- Gained in-depth knowledge of and experience with Python and finance.

PROJECTS

Data Science Project:

- Analyzed the correlation between player statistics in the Premier League 2023/2024 season, focusing on forwards' goals, assists, and minutes played, using Python for statistical analysis and visualization.

Stock Analysis and Investment Strategy:

- Earned 3rd place by developing a program to assess stock performance and test investment strategies.
- Analyzed historical stock data (2012-2021) for S&P 500 companies to identify top and worst performers, comparing future performance to evaluate strategy effectiveness.

LEADERSHIP

I.T CLUB - Founder Aug 2022 - May 2024

- Founded a student organization focused on supporting school technology, particularly Chromebooks. Diagnosed software issues and repaired hardware malfunctions to ensure optimal device performance, fostering a tech-friendly community and enhancing the digital learning experience.
